

REMARKS/ARGUMENTS

It was noted in the response filed April 5, 2005, that an amendment to claim 10 was supported in the specification. In particular, claim 10 had been amended to restrict the "specification" to a size and a performance (speed of reading and/or writing). The amendment is based on the paragraph [0027] in the specification as originally filed.

However, it was mistakenly stated that amended claim added new matter. By way of this supplemental response, it is stated for the record that no new matter has been added by the amended made to claim 10 in the response filed April 5, 2005.

The undersigned respectfully requests entry of this supplemental response.

Respectfully submitted,
